Media Release

Sanli Environmental secured contracts totalling S$78.9 million

SINGAPORE, 5 September 2022 – SGX-Catalist listed Sanli Environmental Limited ("**Sanli**", "the **Company**", "三立环境有限公司" and together with its subsidiaries, the "**Group**"), one of Singapore's leading environmental engineering companies, is pleased to announce that it has secured new contracts from multiple customers worth an aggregate of S$78.9 million since our last announcement on 26 May 2022 and they are expected to be completed by early 2027 (the "**Contracts**"). These Contracts comprise projects in both Engineering, Procurement and Construction ("**EPC**") and Operations and Maintenance ("**O&M**") segments.

The current orderbook of the Group stands at S$371.4 million and is expected to be completed by early 2027.

Barring any unforeseen circumstances, the Contracts are expected to have a positive impact on the net tangible assets and earnings per share of the Group for the financial year ending 31 March 2023.

None of the Directors and controlling shareholders of the Company, as well as their respective associates, has any interest, direct or indirect, in new contracts, save for their shareholdings in the Company (if any).

End.

About Sanli Environmental Limited

Listed in 2017 on the SGX-Catalist, Sanli Environmental Limited ("Sanli") is an environmental engineering company in the field of water and waste management. Sanli's expertise is in the design, supply, delivery, installation, commissioning, maintenance, repair and overhaul of mechanical and electrical equipment as well as process, instrumentation and control systems in wastewater treatment plants, water reclamation plants, NEWater plants, waterworks, service reservoirs, pumping stations and incineration plants.

The Company's business is divided into two main business segments. The Engineering, Procurement and Construction segment provides engineering, procurement and construction services within the field of water and waste management including process upgrading of existing water treatment plants, upgrading of pumping station capacities, replacement of aged mechanical and electrical equipment, and design and build of various treatment process systems. The Operations and Maintenance segment provides corrective and preventive maintenance services to ensure reliability and minimal disruptions to its customers' operations.

Backed by its strong engineering capabilities, Sanli has the ability to integrate mechanical, electrical and process engineering expertise to provide customised, cost- and time-efficient integrated engineering solutions and services to its customers.
