SANLI ENVIRONMENTAL LIMITED

MEDIA RELEASE

For Immediate Release

Sanli secures new EPC contracts worth S$18.1 million

- **Order book grows to S$121.3 million**
- **Contribution to revenue for the next three years from FY2018**

SINGAPORE, 22 February 2018 – Sanli Environmental Limited ("**Sanli**" and together with its subsidiaries, the "**Group**"), an environmental engineering company with more than ten years of experience and over 1,000 completed projects in the field of water and waste management under its belt, has announced that it has secured four new Engineering, Procurement and Construction ("**EPC**") contracts ("**Contracts**") worth a total of S$18.1 million, bringing the Group's order book to S$121.3 million.

The Contracts secured are projects from the public sector and involve the replacement and enhancement of high tension electrical equipment, the replacement of aged equipment at high lift station and electrical network upgrading, the replacement of switchgears, switchboards, transformers cables and ancillaries, and the supply and installation of water handling equipment.

Mr Sim Hock Heng, Chief Executive Officer of Sanli said, "*The recent contract wins have greatly encouraged and motivated the team. The Group will continue to tap on the demand for water and waste management solutions and work hard to secure new contracts to grow the business further.*"

The Contracts are expected to contribute to the Group's revenue for the financial year ending 31 March 2018.

About Sanli Environmental Limited

Sanli is an environmental engineering company in the field of water and waste management. It has more than ten years of experience and over 1,000 completed projects under its portfolio.

The Group's expertise is in the design, supply, delivery, installation, commissioning, maintenance, repair and overhaul of mechanical and electrical equipment as well as process, instrumentation and control systems in wastewater treatment plants, water reclamation plants, NEWater plants, waterworks, service reservoirs, pumping stations and incineration plants.

The Group has two main business segments: **Engineering, Procurement and Construction** ("**EPC**") and **Operations and Maintenance ("O&M")**. Under its EPC segment, Sanli provides services within the field of water and waste management, including process upgrading of existing water treatment plants, upgrading of pumping station capacities, replacement of aged equipment, and design and build of various treatment process systems. Through its O&M segment, the Group provides corrective and preventive maintenance services to ensure reliability and minimal disruptions to customers' operations.
